Dear ODCS family,

We're very excited to partner with Concentric for FREE covid testing. Concentric will send a nurse to our school every Wednesday, starting August 18<sup>th</sup>. All teachers and staff will be tested weekly. With your consent, your student(s) can be part of the testing, too.

The testing will consist of a nurse aided, self-administered individual swab. Each class will be considered a "pooled" or group test. This means all swabs from the classroom group will be put in the same container for delivery to the testing facility. If a group comes back with a positive result, you will be contacted and have the option of getting an individual test for your student(s). If the group comes back negative, you will have peace of mind that we're doing everything we can to provide a safe learning environment for your student(s).

You can join the testing in one of two ways. You can fill out and return a paper consent document or you can fill out an online consent form.

To use the online consent form, please navigate to the Concentric website using the link below to complete the consent process if you'd like your student(s) to be included. If you are providing consent for more than one student, please complete the process once for each student.
